You can use Anytime Banker to check your account balance, verify your last deposit or withdrawal, check past transactions, listen to checks that have been presented against insufficient funds and check the accrued interest on your account. The first time you call Anytime Banker, use the last four digits of the social security number of the primary account

holder (the 1st name on your statement) as your secret code (PIN number). You will then be asked to change your secret code for security purposes. Each of your accounts can have a separate secret code. Please do not write your secret code in your checkbook or any other place where it can be read by others. If you have any questions, please call our regular number (334)298-0691 and a customer service representative will be happy to assist you.
